

## LLC Foundation Partnership Program

The Foundation Partnership Program is an excellent opportunity for foundations to strengthen their own leadership development work while investing in Leadership Learning Community. The need for core operating support continues to challenge nonprofits, as we strive to build sustainable models of fundraising. As a member of the LLC Foundation Partnership Program, you are making a direct contribution to the core mission work of LLC by providing our community with access to resources and networks, to advance a more just and equitable society. By supporting organizations that pioneer cutting-edge thinking and relevant connections between field and stakeholders, foundations are making innovative investments that contribute to furthering the leadership development field as a whole.
